DALFILM S.A.: Press Release # 001/2024

Reference: Expansion capacity

Dear Customers/Suppliers:

We are pleased to inform you that our group has completed during the month of June 2024 a very important expansion of the covered area of our facility in the La Pilarica Industrial Center. This allowed us to continue with the second stage of expansion and to announce you with satisfaction the purchase of a new laminate manufacturing line that includes a laminator/coater machine and a slitter machine, both of the latest generation. This investment, which will double our industrial laminate capacity, we estimate will come into operation during the first quarter of 2025. Accompanying this growth, we have implemented and put into use an advanced ERP management system. All this will allow us to meet the needs of the domestic and regional market in a more efficient manner.

The BOARD of DIRECTOR
